### **PROJECT:**

- **Portfolio** **July 2024**
  - Designed a responsive portfolio website using HTML, CSS, and JavaScript to showcase projects, skills, and experiences.
  - Implemented interactive navigation, project previews, and a contact form for professional inquiries.
  - Optimized for mobile and desktop devices, ensuring seamless user experience and accessibility.
- **Landing Page** **July 2024**
  - Developed a visually appealing and responsive landing page with HTML, CSS, and JavaScript to drive user engagement.
  - Integrated call-to-action buttons, animations, and hover effects for an interactive user experience.
  - Optimized layout for fast loading, SEO, and cross-browser compatibility.
- **Calculator** **August 2024**
  - Developed a user-friendly calculator capable of performing basic arithmetic operations like addition, subtraction, multiplication, and division.
  - Implemented a responsive design to ensure smooth usability across different device and screen sizes.
  - Optimized performance and accuracy, ensuring quick calculations with a clean and intuitive interface.
- **Restaurant Ordering Website with QR Code** **Current**
  - Customers can scan a QR code placed on tables to access the digital menu instantly, eliminating the need for physical menus.
  - Designed an intuitive and responsive website for easy navigation, ensuring a hassle-free ordering experience.
  - Implemented a safe and reliable online ordering process, enhancing operational efficiency for restaurant staff.
  - Ensured fast loading speeds, mobile compatibility, and SEO optimization to enhance user experience and restaurant visibility.
