PROJECTS

PORTFOLIO

- **Personal Portfolio Website:** Designed and developed a fully responsive personal website using **HTML** and **CSS**, showcasing a collection of web projects, skills, and professional achievements. Optimized for desktop, tablet, and mobile devices.
- **Implemented responsive layouts** with CSS Grid and Flexbox, ensuring the website adapts to various screen sizes and devices.
- **Enhanced user experience** by integrating smooth scroll effects, interactive navigation, and custom animations for a modern look.

LANDING PAGE

- **Landing Page Design:** Created a visually appealing and user-friendly landing page for a product launch, utilizing **HTML5** and **CSS3** to ensure cross-browser compatibility and fast load times.

BUS RESERVATION SYSTEM USING DJANGO

- **Developed a Bus Reservation System** using **Django** and **Python**, allowing users to search bus routes, book tickets, and view seat availability in real-time.
- **Developed a bus reservation system** with Django, allowing users to book, view, and cancel bus tickets online.
- **Integrated user authentication** for secure login and registration, and managed bookings with Django ORM.
- **Designed dynamic templates** to display bus schedules and send email notifications for booking confirmations.

SIMPLE CALCULATOR

- **Developed a basic arithmetic calculator** using **HTML**, **CSS**, and **JavaScript**, allowing users to perform addition, subtraction, multiplication, and division with a simple, responsive UI.
- **Built a fully functional calculator** using **HTML** and **CSS**, focusing on creating a clean, user-friendly interface.
- **Designed responsive layouts** ensuring optimal performance across various devices with flexible and adaptive CSS styles.
